

LOWPRO PANEL

SUPPLIED BY:

The LowPro panel is a 3D moulded grid used for fixing pipework in underfloor heating systems. The reduced height gives a considerably reduced height perfect for both renovations and new builds and custom hollow structure ensures a completely embedded and encapsulated system for even heat distribution

Features & Benefits:

- Suits 16-17mm pipework
- Great flexibility with pipe laying pitch in multiples of 50mm
- High strength pipe clips ensure pipework is held in place
- Peel and Stick simple installation due to adhesive backing
- Side interlock on each panel for joining each sheet
- Innovative cutouts make this panel suitable for sand/concrete based & self levelling screeds

MEASUREMENTS

800 (L) x 400 (W) x 22 (D) mm
